Overview Admission Requirements Contact

**Offers of Admission for Ontario High School Students**  
**Basic Requirements for Admission**  
The primary criterion for admission to OCAD University's studio based degree programs (BDes or BFA) is a portfolio assessment. All applicants will be scheduled for a portfolio assessment. Admission to our non-studio degree program (BA Honours) is based on a combination of academic requirements and supplemental application materials. A \$40 fee, payable in advance, is required to cover the cost of the portfolio reviews and/or supplemental application materials.

All offers of admission are conditional upon meeting the minimum academic requirements. Ontario high school students must successfully complete an Ontario Secondary School Diploma (OSSD), including the following:

- Six 4U/M courses with an overall final average of 70%
- 4U English (ENG4U) with a minimum final grade of 70%

If English is not your native language and you have not completed four full years of study in an English school system, you will be required to provide additional documentation of English proficiency. For more information, visit: [www.ocad.ca/en/prospective-students/admission-requirements/english-proficiency.htm](http://www.ocad.ca/en/prospective-students/admission-requirements/english-proficiency.htm)

**Failed and Repeated Courses**

Order of choices is not usually a factor in admissions decisions. When exceptions exist, universities must state their policies clearly in their literature.

Ordering allows universities to project the number of applicants likely to accept offers so that proper resource planning can be made.

## Student Contribution

**What you pay out of pocket**

You are expected to contribute \$3,000 per school year to your education costs.

This amount is based on the amount a student can earn (after tax) while working over a summer. By working an average of 17 hours per week - at minimum wage, for 16 weeks - you will be able to make this contribution.

You can also put any existing savings toward the required contribution amount. Or, if you are working at a part-time job while in school, you can put the money you earn during the school year towards the contribution amount.
